
CERAMGRIP

General description

A fine grain, air setting adhesive specially developed for bonding low and high porosity materials together.

The superior adhesive qualities of **CERAMGRIP** are also ideal for attaching ceramic fibre products to refractory or metal and the joining of other lightweight insulation boards.

HEALTH AND SAFETY PRECAUTIONS

Avoid direct skin contact with both wet and dry states. Avoid breathing dust by wearing a P1 or P2 dust mask suitable for airborne dust. Wear appropriate protective clothing and footwear.

Before Use

No mixing requirements needed

Typical Characteristics

Colour	Grey
Density	2500 Kg/M3
Size	4 Lt Bucket

Revision No: 1
Issue Date: 1/07/2007

Authorised: ps
Form: za1
