Micro Kjeldahl Units

Single Heater

These units are specially designed with Incoloy metal clad Element set in an aluminium block 65 mm diameter machined to give most efficient heating for kjeldahl flasks.

They are controlled by an energy regulator and can operate at temperatures up to 400°C.

The body is made of stainless steel. The aluminium block is removable and additional blocks can be supplied to suit test tubes or flat bottom soxlet extraction type flasks.

Overall dimensions of unit are 90 mm H x 75 mm W x 265 Mm D. Rating 240V 100W. Catalogue No. MIKI.

Six Heater

Micro Kjeldahl units, using the same type of heaters with adjustable support racks for Kjeldahls flasks are also available with stainless steel body.

Overall dimensions 150 mm H x 265 mm D x 640 mm W. Rating 240V 600W. Catalogue No. MIK6.
