Steam Baths

SEM Steam Baths are constructed of all stainless steel with welded joints, and filled with a constant water level device.

The heating element is easily replaceable and has an inbuilt over heat protection device.

Water temperature is controlled by an energy regulator. The cover is removable for ease of cleaning.

Also available as "in line" units to customer requirements.

Steam Bath	Rating	Overall Dimensions mm	Cover Layout	Catalogue No.
6 Place 80 mm holes	240V1500W50Hz	334 x 220 x 185	Two row of three holes each fitted with a set of four rings.	SB6-80
6 Place 100 mm holes	240v 2400W 50Hz	430 x 295 x 185	Two rows of three holes each fitted with	SB6-100
