VORMIX

Vortex Mixer

Features

The Vormix is a Touch Go or constant variable speed Vortex Mixer with ample power for test tube mixing. The motor is electronically controlled giving constant speed and good torque at all levels. A two position switch with (4 inbuilt pilot light gives continuous or touch start running. Suction type rubber feet give stability and quiet running.

Design

The unit is mounted on a cast aluminium base with a strong metal case coated with an attractive bright enamel which is easy to clean and resistant to chemicals. The skirted rubber cup protects components within the case from accidental spillage. Components are readily available and easy to replace if necessary.

Also available with wrist operated touch plate. Catalogue No. VM8OTP
