

Gas Pottery Kilns

Furnace Technologies manufacture a range of low thermal mass kilns ideal for the home potter. They have a large firing area at the same time as being of light weight construction. These kilns can be run on Natural Gas or LPG and be designed and manufactured to custom specifications.

Options List

Outer Shell	Stainless Steel	Galvanised and painted	Acid Resistant
Thermocouples	K, R, N, T, S, J, B, E, T, W
