

Furnace Technologies has been manufacturing pottery kilns in Western Australia since 1994. Our proven designs and attention to detail have set the standard for kiln manufacture. Our kilns come in a variety of sizes and for different power requirements. All our kilns are available in standard and HP (high powered) models to suit power availability and loads.

Our electric kilns can also be fitted with a number of optional features to suit your requirements.

Custom sizes can be designed and manufactured on request.

Detail	Standard	Options
Shell	PGI	Stainless Steel
Thermocouples	Type K	Type R
Roof Style	Flat	Arched
Door hinge	LHS	Vertical or RHS
Over Temperature Protection	No	Thermal fuse or Control TC
Control	Single program	TAIE/Shinko multi program/ Bartlett Genesis 2.0 touch screen

Electric Kiln Optional Features

We offer a select range of high quality controllers for pottery kilns. This allows you to choose an option that offers the programming specifications, functions and interface that best fit your needs and provide the desired degree of control of the firing process.

FY 400

FY 700

TAIE Temperature Controllers

- ◆ Digital PID Controller
- ◆ Single (FY 400) or 18 program (FY 700)
- ◆ 8 steps in each program

Shinko PCB Temperature Controller

- ◆ Digital PID Controller
- ◆ 10 program
- ◆ 10 steps in each program

FT Touch Screen Control Box featuring Bartlett Genesis 2.0 Kiln Controller

- ◆ User-friendly touch screen interface for simple and effective operation
- ◆ 30 recipes /programs
- ◆ Up to 32 steps in each recipe
- ◆ Monitor your firing via PC or phone app
- ◆ Pre-programmed with standard Bisque and Glost firing patterns, additional programs or adjustments to parameters available on request.
